

Interested in learning how to keep your septic system functioning properly?

Attend the Homeowner Maintenance of Systems Course for Free!

This course provides a basic understanding of the operational and maintenance activities of conventional and aerobic septic systems, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, and an overview of how to inspect and maintain the system. This course also provides answers to the most frequently asked septic system questions, including when to pump out a tank and what can or cannot go down the drain.

The same course will be offered in two locations. Attend the course offering that is most convenient for you.

Course Information:

TUESDAY, NOVEMBER 12, 2013, 6:00—8:00PM

**GBRA River Annex
905 Nolan Street
Seguin, Tx 78155**

WEDNESDAY, NOVEMBER 13, 2013, 6:00 - 8:00PM

**Comal County Extension Office
325 Resource Drive
New Braunfels, TX 78132**

Cost: Free!

**To register: Seating is limited, so contact Ward Ling at wling@ag.tamu.edu
979-845-6980**

Why Should You Attend?

Septic systems are not “flush and forget” systems! Therefore maintenance is essential to ensure proper function and longevity of your septic system. Attendees will gain a better understanding of how to maintain their septic system to protect the health of their family and the environment.
