

Interested in learning how to keep your septic system functioning properly?

Attend a Homeowner Maintenance of Septic Systems Course for Free!

The 2 hour course provides a basic understanding of the operational and maintenance activities of conventional and aerobic septic systems, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, and an overview of how to inspect and maintain the system. This course also provides answers to the most frequently asked septic system questions, including when to pump out a tank and what can or cannot go down the drain. The 6 hour course covers the same material as the 2 hour class, but goes more in depth on aerobic systems and their operation and maintenance. This class will provide homeowners in Guadalupe County with the certification to maintain their own aerobic system.

Two different courses are being offered at the same location.

Attend the course offering that fits your needs.

Course Information:

MONDAY, OCTOBER 24, 2016, 6:00PM—8:00PM

**AGRI LIFE EXTENSION OFFICE
210 E. Live Oak Street
Seguin, Tx 78155**

TUESDAY, OCTOBER 25, 2016, 8:30AM - 3:30PM

**AgriLife Extension Office
210 E. Live Oak Street
Seguin, TX 78155**

Cost: Free!

To register: Seating is limited, so contact Ward Ling at wling@tamu.edu or at [979-845-6980](tel:979-845-6980) to register.

Why Should You Attend?

Septic systems are not “flush and forget” systems! Therefore maintenance is essential to ensure proper function and longevity of your septic system. Attendees will gain a better understanding of how to maintain their septic system to protect the health of their family and the environment.

Funding is made possible through the Clean Water Act Section 319(h) dollars provided through the Texas State Soil and Water Conservation Board (TSSWCB).
