

The Geronimo Flow

Special Issue

8th Annual Geronimo and Alligator Creeks Cleanup Event

On behalf of the Geronimo and Alligator Creeks Watershed Partnership, I would like to thank our partners, sponsors, and volunteers for the support of the 8th Annual Geronimo and Alligator Creeks Cleanup Event! With your help and dedication, we were able to remove 1,880 pounds of trash and debris from the watershed!

This year's Cleanup Event was not a typical one, and I, like you, look forward to returning back to normal, including breakfast tacos, coffee, and a firendly gathering of volunteers the morning of the Event. I hope that we can enjoy these things together soon! But even though we had to change the format of our Cleanup Event this time, the impact of our effort this year was quite impressive!

You can read about the 8th Annual Geronimo and Alligator Creeks Cleanup Event in [Seguin Gazette](#) and [AgriLife Today](#). Scroll down to see the photos and feel free to upload yours on our [Facebook](#) page!

Thank you for helping us keep the Geronimo and Alligator Creeks watershed healthy and beautiful! We couldn't have done this without you!
